Falcon Crown / Item 11

Unique / *Abjuration* / *Invested* / *Magical*

Price 1,400 gp

Usage worn

This metal headdress is shaped like a falcon's head and enameled in brilliant colors. Originally crafted for a wizard dedicated to Horus as a reward from his pharaoh for his prowess on the battlefield, the falcon crown was believed lost when the wizard was struck down by an ancient blue dragon. Centuries later, however, archaeologists discovered the falcon crown among the ruins of lumen. Researcher-priests of Nethys acquired the crown shortly after, and when the Nethysian priestess Serethet became the Forgotten Pharaoh, she claimed the falcon crown for herself.

This crown allows you to cast a 4th-level *mage armor* as an arcane innate spell.

Activate (Reaction) (metamagic); **Trigger** You cast an arcane spell; **Frequency** Three times a day; **Effect** You make a spell attack at +18 to hit against the target of your spell, dealing 4d4 force damage on a success (or double damage on a critical success).
